## NIFTY DAILY CANDLESTICK CHART

STRATEGIES:- Last week Nifty traded in very narrow range of 8900-9000 while the election result has been announced so the market will breach this range and we can see rally in market since election outcomes according to BJP in UP so we may see positive move but still nifty moving near life time high so as compare to buy at higher level wait and buy Nifty around 8950 for target of 9100 9300 with strict stop loss of 8850 where 8850 is breakdown level.
